Established in 1823, Bairds Malt Ltd currently operates five malting sites across the UK.

Their malt houses are located in the best malting barley growing regions in the UK so as such, they have a policy of using only locally grown barley.

As suppliers to many well known brewing and distilling companies, they take quite a bit of pleasure from the fact that a great many people enjoying a drink indirectly appreciate our efforts in producing malt of the highest possible quality.

Headquartered in Heidelberg, Best Malz malt houses are located in the best cultivation areas for growing brewer's grade barley in Europe – Niedersachsen, Rheinhessen, Rheinland-Pfalz and Baden Wuerttemberg, Germany.

Best uses only pure, top-grade, two-row spring barley which they personally choose from co-op farms in their growing region. All of their barley and wheat is grown under controlled organic methods, based on the most modern agricultural regiment with the goal of fulfilling your specific demands for quality.

Gambrinus Malting Corporation has the distinction of being the smallest malting house in North America. The company produces about 6,200 US tons of malt each year at its malthouse.

The malthouse originally belonged to the Schlossquell Brewery of Heidelberg, Germany. In 1992 the malthouse was dismantled and shipped to Armstrong, British Columbia, Canada where it still resides today producing some of the finest Canadian 2-Row malts available.

## Home Brew Cleaning Kit

A single Five Star Home Brew Cleaning Kit contains everything needed to clean and sanitize **all** of your brewing equipment up to eight times, including complete directions, 8 dose packs of PBW and an eight ounce bottle of Star San. Perfect for those new to home brewing.

Each Homebrew Cleaning Kit comes with an easy to understand instruction book detailing how to use PBW and Star San. The book also explains why each product works, and the **Eight Rules For Cleaning and Sanitizing**.

<u>Product Code &amp; Description</u>	<u>Per Kit</u>
<b>Home Brew Cleaning Kit</b>	<b>\$17.95</b>

## PBW

PBW (Powdered Brewery Wash) is a patented alkali cleaner originally developed for Coors. PBW is designed to act as a soak or manual cleaner.

Simply let dirty items soak overnight in PBW solution. After rinsing the next morning they will be shiny and clean. **Never Scrub Again!** PBW can effectively clean items that can't be reached with a brush or sponge, and is strong enough to remove impossibly thick, difficult, baked on soils.

PBW is environmentally friendly, biodegradable, and will not harm the 'friendly' bacteria in your septic system.

<u>Product Code &amp; Description</u>	<u>2 ounces</u>	<u>1 pound</u>	<u>4 pounds</u>	<u>8 pounds</u>
<b>PBW (Powdered Brewery Wash)</b>	<b>\$1.20</b>	<b>\$7.95</b>	<b>\$24.00</b>	<b>\$40.00</b>

## Star San

Star San is a flavorless, odorless, no-rinse food grade sanitizer. When used according to directions Star San will completely eliminate all microorganisms that it comes into contact with. Star San acts quickly (5 minutes), and foams to sanitize cracks, crevices and other 'impossible' places in your equipment.

Star San will leave a microscopic film on sanitized items that will continue to protect your bottles and equipment even after they have dried. This will not affect the quality, flavor, clarity or color of your beer.

Star San is environmentally friendly, biodegradable, and will not harm the 'helpful' bacteria in a septic system.

## Saniclean

Saniclean is fundamentally the same as Star San, only without the foaming action. Perfect for circulation cleaning, spray bottles, or other applications where foam is not desired.

<u>Product Code &amp; Description</u>	<u>16 ounces</u>	<u>32 ounces</u>
<b>Star San – Sanitizer</b>	<b>\$10.00</b>	<b>\$14.95</b>
<b>Saniclean - Final Rinse Acid</b>	<b>\$8.50</b>	<b>\$12.50</b>
